2019 CATALOG

GENUINE HONDA

When it comes to maintaining a beautiful lawn, nothing makes the cut like a genuine Honda lawn mower. Behind every exclusive feature, you'll find technology that crosses our entire product line. Technology born and tested on racetracks and roadways around the globe that continuously keeps us on the cutting edge. From automobiles, race cars, motorcycles and all-terrain vehicles to marine engines, general-purpose engines and power equipment products, Honda is committed to designing products that meet or exceed the demands of our customers throughout the world. In fact, all Honda Lawn and Garden products are both EPA and California ARB emission certified for all 50 states.

Throughout our history, Honda has been dedicated to technological and environmental innovation, and today is no different. After all, we have a legendary reputation to live up to. A reputation for unsurpassed quality, performance, and reliability. A reputation worth considering the next time you're in the market for a new lawn mower.

Honda *Firsts* In Advanced Technology

1st The First Lawn Mower to Feature the Roto-Stop® BSS

In 1978, Honda introduced the BSS (Roto-Stop®) on the HR21 as a safety and convenience feature that stops the blade while the engine continues running. It was so revolutionary, it helped establish new lawn mower safety regulations in the U.S. The Roto-Stop® Blade Stop System is currently available on many Honda Lawn Mower models.

1st The First Lawn Mower to Feature an Overhead Valve Engine

Developed in 1983, Honda was the first manufacturer to use a four stroke, overhead valve engine on a walk behind lawn mower. The advantage to consumers was a quieter, more fuel efficient engine that provided easier starting and offered better overall performance.

1st The First Lawn Mower to Feature a Hydrostatic Drive

Honda is the only manufacturer to offer a Hydrostatic transmission on a 21" walk behind mower, providing precise and repeatable speed settings across all mowing conditions. Available on several Honda Lawn Mower models.

1st The First Lawn Mower to Feature an Overhead Cam Engine

Honda was the first lawn mower manufacturer to develop an overhead cam engine for use on a walk behind lawn mower. Introduced in 1997, the GCV160 engine offers lighter weight, less mechanical noise, improved fuel efficiency and the world's first small engine internal timing belt.

1st The First Lawn Mower to Feature a NeXite® Deck

Honda is the only manufacturer to use NeXite®, a rust-proof, dent-proof material for its HRX mowing decks, backed with a lifetime warranty.* NeXite® is so strong that it can stand the weight of a parked vehicle. (Not that we recommend this!) Exclusively available on the HRX series.

1st The First Lawn Mower to Feature the Versamow System

The Versamow System, developed and introduced by Honda in 2003, is the only one of its kind, giving the user complete flexibility and control of grass flow during the mulching or bagging process. Exclusively available on the HRX series.

The Twin Blade Advantage

Honda HRX and HRR models have an exclusive feature no one else offers, The Twin Blade Advantage. With each rotation of the blades, your lawn is cut, then cut again for a smooth, even surface. But that's just the beginning. Twin blades repeatedly chop up each blade of grass, producing finer clippings, and that means when mulching,

it's easier for valuable nutrients to go back onto your lawn to help feed it and keep it green. It also means when bagging, you'll be emptying a lot less often because the smaller clippings allow your bag to hold more. A perfect cut, better lawn care and less work for you, that's the Twin Blade Advantage—only from Honda.

*For warranty details, see your local Honda Power Equipment Dealer or visit powerequipment.honda.com.

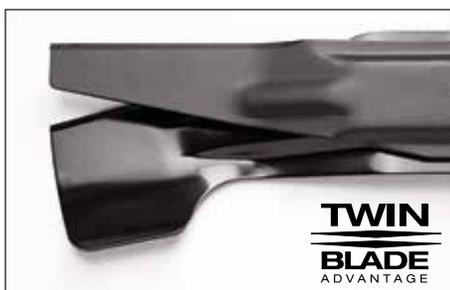

The enjoyment of caring for your lawn begins with an exceptional lawn mower. One where the reliable engine, durable deck, handlebars and controls have been carefully thought-out, then crafted to meet safety standards and provide ease of operation. Do we obsess about our lawn mowers? Yes, but that's so you won't have to. All you have to do is make the smart choice in Honda.

One Reliable Honda Engine For All

Honda certifies to all applicable CARB and EPA emission requirements by offering lawn mower engines with 50-state certification. The development of one engine for use in all 50 states continues to reflect Honda's forward thinking with regard to emission regulations, air quality, and the needs of our customers.

The Unique, Time Saving Honda Twin Blade System

Only Honda Lawn Mowers feature a twin blade mowing system. The MicroCut® System on the HRR and HRX models provide four cutting surfaces for ultra fine clippings resulting in better mulching and increased bag capacity, which saves you time. Grass is cut into tiny pieces that quickly decompose and add money-saving nutrients to your lawn.

Rugged & Reliable Honda Decks

We offer two great mowing decks. HRS and HRR models feature our heavy-duty steel deck while HRX models feature our exclusive NeXite® mowing deck that is tough, resilient, easy to clean, and comes with a lifetime warranty*.

On All HRX Series Lawn Mowers

On All HRS And HRR Series Lawn Mowers

*For warranty details, see your local Honda Power Equipment Dealer or visit powerequipment.honda.com.

Choose Your Own Speed With Adaptable Choices Of Transmission Controls

With Honda, you have simple, precise speed control at your fingertips. Choose from the adjustable, variable speed Smart Drive, our infinitely variable speed Honda Select Drive® System, or the hydrostatic drive transmission with Cruise Control.

Honda Select Drive® System allows you to easily adjust the mower's maximum speed to your stride by rotating the speed adjust dial. Then simply engage and vary the Select Drive™ control while mowing for intuitive, comfortable speed control.

Honda transmissions offer time-saving features that allow you to walk at your own pace while easily adjusting ground speed to match mowing conditions.

See specifications chart for details.

Honda Select Drive® System

Cruise Control

Smart Drive

4-in-1 Versamow System With Clip Director®

Mulch, bag, rear discharge or leaf shred with no parts to lose and no tools required. (HRX only)

3-in-1 System With Clip Director®

Mulch, bag or rear discharge with a simple turn of the Clip Director® – no parts to lose and no tools required. (HRR only)

Easy On/Off Grass Bag

Our HRR and HRX model grass bags make it easier than ever to empty clippings, saving you time and effort. An optional low dust bag is available for HRX models.

Height Adjustment System

Six or seven adaptable mowing height adjustments from 3/4" to 4" (depending on model) to suit your particular mowing needs.

4-IN-1 VERSAMOW SYSTEM WITH CLIP DIRECTOR®

Simple To Use, 4-in-1* Adaptability Saves You Time And Money

Standard Rear Bag

Large capacity, easy on/off grass bag.

Exclusive Twin Blade Mulching

The MicroCut® System offers twin blades for precise cutting and finer mulching.

Rear Discharge Chute

For mowing open areas when bagging or mulching is not desired.

Leaf Shredding

Means more leaves per bag and less emptying of bags for spring and fall clean-up.

*4-in-1 system standard on all HRX models.

Honda HRS & HRR Series

A Great Lineup, All Engineered And Built By Honda

Every one of our HRS and HRR lawn mowers is engineered by Honda from the ground up,

which means you can depend on every part of these lawn mowers from the powerful, easy-starting engines to the exclusive Twin Blade Advantage of the MicroCut® System (HRR models). The legendary reliability you've learned to expect from Honda is built right in.

HRS & HRR MODELS

HRS MODELS

Honda adjustable, variable speed Smart Drive; Auto Choke with Adjustable Throttle Control; Roto-Stop® Blade Stop System; 3-in-1 system with Clip Director®

HRS & HRR FEATURES

3-in-1 System With Clip Director®

Mulch, bag or rear discharge with no parts to lose and no tools required. (HRR only)

Easy Fold Quick Release Handle

For simple height adjustment and storage.

Honda Adjustable, Variable Speed Smart Drive Control

Easily control the speed when resting hands on the handlebars. (HRS/HRR VKA and HRR VLA & VYA only)

Roto-Stop® Blade Stop System

Start and stop the blade with engine running. (HRR VYA only)

Exclusive Honda Twin Blade MicroCut® System

Features twin blades for superior cut quality, mulching and bagging. (HRR only)

Self Charging Electric Start

Under normal mowing usage, it is not necessary to charge or maintain the battery. (HRR VLA only)

ADDITIONAL FEATURES:

Honda 160cc, single-cylinder OHC/OHV engine

Push or adjustable, variable speed Smart Drive

Roto-Stop® Blade Stop System (HRR VYA only)

Self charging Electric Start (HRR VLA only)

Quick release handle

Adjustable throttle control (HRR VYA only)

Ball bearing-supported rear wheels

21" mowing width

6 mowing height adjustments

Side discharge (HRS)/Rear discharge (HRR)

1-blade (HRS) or exclusive Twin Blade MicroCut® System (HRR)

Large easy-off 1.9 bushel Grass Bag (HRR only)

(For all features and specifications, see back page.)

INTRODUCING THE ALL-NEW HRX SERIES LAWN MOWERS

Great lawns are made, not born. It takes dedication and the right tools.

Introducing the next generation of Honda HRX Series lawn mowers. They feature a sleek new Honda GCV200 engine that delivers 10% more power* and torque for superior mowing and outstanding performance in thick grass.

Honda's new HRX models are more than lawn mowers.

They're lawn makers.

*10% more power than HRXK5 models.

HRX

Honda HRX Series

The Ultimate Lawn Mowing Machines

NEW FOR 2019

With unmatched innovation and technology, the Honda HRX Series leads the way in lawn mower engineering.

New for 2019, the HRX Series features an easy-starting and powerful all-new Honda GCV200 engine.

The HRX also offers exclusive and advanced design features like the Versamow System. It allows you to mulch, partially mulch, bag, rear discharge, or shred leaves. There are no tools or attachments to fiddle with, and it's the first lawn mower ever designed to simultaneously distribute clippings to both the bag and ground, providing your yard the benefits of mulching and dramatically reducing the number of times you have to empty the grass bag. The convenient Clip Director® control regulates how much is bagged or mulched.

Engineered and built by Honda, there's nothing else out there like the HRX.

HRX217VKA

Infinitely variable speed with Honda Select Drive® System; Auto Choke; mulch, bag, discharge or leaf shred with Versamow System; NeXite® mowing deck

HRX217VYA

Infinitely variable speed with Honda Select Drive® System; Auto Choke with Adjustable Throttle Control; mulch, bag, discharge or leaf shred with Versamow System; Roto-Stop® Blade Stop System; NeXite® mowing deck

HRX217VLA

Infinitely variable speed with Honda Select Drive® System; mulch, bag, discharge or leaf shred with Versamow System; Auto Choke System; NeXite® mowing deck; self charging Electric Start

HRX217HYA

Precise and adjustable speed hydrostatic Cruise Control; Auto Choke with Adjustable Throttle Control; mulch, bag, discharge or leaf shred with Versamow System; Roto-Stop® Blade Stop System; NeXite® mowing deck

HRX217HZA

Precise and adjustable speed hydrostatic Cruise Control; Auto Choke with Adjustable Throttle Control; mulch, bag, discharge or leaf shred with Versamow System; Roto-Stop® Blade Stop System; NeXite® mowing deck; self charging Electric Start

The New Honda GCV200 Engine

Honda HRX Series lawn mowers offer an easy-starting and powerful new Honda GCV200 engine, with 10% more power* and torque.

The GCV200's new CycloFlow™ design strengthens turbulence in the cylinder, providing more stable combustion. This results in lower emissions, improved ease of starting, and greater resistance to low quality fuel.

To improve ease of use and servicing, the GCV200 design includes an optimized oil filler position and a 60% larger fuel filler to prevent spills.

Automotive-Style Dipstick With Optimized Positioning

60% Larger Fuel Filler With Tethered Gas Cap

*10% more power than HRXK5 models.

HRX FEATURES

EXCLUSIVE

Roto-Stop® Blade Stop System

If you need to stop the blade without shutting off the mower, Roto-Stop® does it in a flash. That way, you can empty the bag without having to restart the engine. (Available on HRX HYA & HZA [above left] and HRX VYA [above right] only)

EXCLUSIVE

EXCLUSIVE

4-in-1 Versamow System With Clip Director®

Mulch, bag, rear discharge or leaf shred with no attachments to lose and no tools required.

EXCLUSIVE

NeXite® Deck

The HRX deck is constructed of advanced and extremely durable NeXite® material that does not dent, rust or corrode over time. Developed for Honda, NeXite® is exclusive on Honda HRX lawn mowers.

HRX STANDARD FEATURES:

Honda 4-stroke 200cc, single-cylinder OHV engine

4-in-1 Versamow System with Clip Director®

Durable NeXite® deck

21" mowing width

Choice of infinitely variable speed Honda Select Drive® System or Hydrostatic Transmission with Cruise Control

Rear discharge with no attachments

9" ball bearing-supported wheels

Exclusive twin blade MicroCut® System

Choice of flywheel brake or Roto-Stop® Blade Stop System

3-position, Quick Release adjustable handle

Sealed control cables

Large 2.5 bushel capacity grass bag

7 mowing heights: 3/4" to 4"

(For all features and specifications, see back page.)

TWIN
BLADE
ADVANTAGE

CRUISE CONTROL

EXCLUSIVE

Cruise Control

The HRX HYA and HZA models offer Honda's exclusive hydrostatic transmission that allows precise and adjustable speed control so you can walk at your own pace and still get an excellent cut.

HONDA SELECT DRIVE

EXCLUSIVE

Infinitely Variable Speed Honda Select Drive® System

Intuitive, comfortable, convenient speed control from 0 to 4 mph right in the palm of your hands. (HRX VKA, VLA & VYA only)

EXCLUSIVE

Exclusive MicroCut® System

Designed specifically to work with the HRX deck, the Honda MicroCut® twin blade system uses four cutting surfaces that result in more efficient bagging and mulching. When bagging, MicroCut® means you can mow farther before emptying the bag.

Honda's Self Charging Electric Start

Effortless and convenient automotive style key start. Under normal mowing usage, it is not necessary to charge or maintain the battery.* A charge coil charges the on-board battery while the lawn mower is in use. (HRX VLA & HZA only)

*Optional battery charger available.

Auto Choke System

Eliminates need to choke engine prior to starting.

Move Up with Honda

Choose the model features you need to simplify your lawn mowing and **Move Up** to the Honda Lawn Mower with the best combination of innovative features to meet your needs.

For additional warranty details, see your local Honda Power Equipment Dealer or visit our website at powerequipment.honda.com.

Looking for a Premier Level of Customer Service from Your Honda Dealer? Now You Have It

With the new Honda Premier Service and Honda Premier Dealership designations, we're making it even easier to find the best local dealers for Honda Power Equipment sales, service, and support at www.powerequipment.honda.com/dealer-locator.

Visit our website anytime to search for the dealer nearest you—from our network of more than 3,000 authorized Honda dealers nationwide—and see the latest information on equipment and accessories.

Why choose a Honda Premier Service dealer?

Honda Premier Service dealers meet the highest customer satisfaction standards for Honda warranty, service and parts—*no matter where you purchased your Honda product*. You can always count on a Honda Premier Service Dealer to:

- Be responsive and professional
- Have highly trained service technicians who have gone through Honda's exclusive Honda Power Training curriculum
- Have the necessary tools to get the job done right
- Complete warranty repairs within 10 calendar days of the repair order

**Honda
Premier
Service**

Why choose a Honda Premier Dealership?

In addition to meeting the superior warranty, service and parts standards of a Honda Premier Service dealer, these dealerships perform at the highest level and have attained the highest standards by providing the best overall customer experience set by Honda. Honda Premier Dealerships provide the best overall customer experience through:

- Additional Premier Performance training for their staff
- Superior product knowledge to help with all your purchases
- Participation in all sales programs as well as other business standards

**Honda
Premier
Dealership**

For the highest quality in sales and service support, look for the Honda Premier Service and Honda Premier Dealerships in your area or find them online at www.powerequipment.honda.com/dealer-locator.
